

**Sangiorgio, tumble dryer, heat pump,  
8 kg  
SDR8I**

**Technical Information**

- Inverter motor
- Heat pump technology with R290 refrigerant (low environmental impact)
- Dimensions (HxWxD): 844 × 596 × 630 mm
- Net weight: 52 kg
- Electrical connection: 220–240 V, 10 A, 600 W

**Energy-efficient heat pump dryer with inverter motor, digital display, and advanced programs for easy ironing, wardrobe-ready clothes, and optimal drying performance.**

- Energy-efficient: class C, optimized with heat pump tech
- Inverter motor: quieter and more durable
- Advanced programs: tailored drying for all types of fabrics
- Easy ironing & wardrobe-ready: specialized cycles reduce ironing time and prepare clothes for immediate storage or wear
- User-friendly digital display: clear program status, filter, and water tank indicators
- Child safety and convenience features: LED lighting, child lock, delay start, and drum rotation inversion

**General Information**

- Type: Free-standing heat pump dryer
- Capacity: 8 kg
- Model: SDR8I
- Color: White
- Door reversibility: Yes
- Door opening angle: 180°

**Performance and Consumption**

- Energy class: C (previously A+++)
- Annual energy consumption: 174 kWh
- Noise level: 65 dB
- Condensation efficiency class: B
- Program duration (full load): 143 min/cycle
- Digital display with indicators for: tank full, filter cleaning, program status, end-of-cycle signal

**Programmes**

- Standard programmes: Cotton, Intensive (Eco Dry), Synthetics, Quick Dry, Shirts, Towels, Jeans/Colors, Down, Sport/Fitness, Delicates, Sheets, Wool, Mixed, Ambient Air, Hot Air

**Comfort and Safety**

- Child lock
- LED lighting
- Buzzer at end of cycle
- Delay start: 1–24 hours
- “Easy Iron”: softens clothes for easier ironing
- “Wardrobe”: ready-to-hang clothes
- “Extra Dry”: ready-to-wear clothes
- Half-load option
- Drum rotation inversion
