NEW FEATURES 2027
KITCHEN, BATHROOM AND LIVING AREA

DESIGN MEETS LIFESTYLE

There comes that moment in the day when you close your door behind you and leave the world outside. When you slow down and relax. When you get to simply be at home. What sounds like a personal experience has become a massive trend. Our homes are becoming an ever more important space: as a reliable safe haven, as a place of comfort and a deliberate antithesis to the hurry and worry of everyday life. Under the motto “From Vision to Home”, our new features for 2027 respond to just this development – with calming earthy hues, natural surfaces, consistent development of time-tested best-selling products and sophisticated concepts that make that feeling of warmth and safety plannable.

2027’s big trend: Slowing down as a factor for success.
Calm, minimalist, yet full of warmth: The need for that feeling of being sheltered has become a central design motif. Our new colour palette focuses on soft earthy hues such as Sand and Ivory, complemented by trend colours inspired by nature such as Terracotta and Berry, as well as dark wood décors.

Authentic wooden looks with vivid grain, textured fronts and balanced tone-in-tone details create tranquil surfaces, depth and material quality you can feel. Worktops in natural stone and wood décors complement the overall look – for a consistent feeling throughout the whole room.

Powerful in everyday life. Powerful in the market.
We have developed our range of best-selling products even further by including deliberately designed additions. Seven of ten new fronts have been given an anti-fingerprint coating – including, for the first time, a melamine resin coated front in a textured wood look from the STRUCTURA range. The new elegant micro frame front CADRA reaches new target groups that value delicate geometries and clean lines.

To create a more beautiful ambiance and provide greater convenience, there is the newly developed under-worktop lighting – and it can be installed even in plans without handleless designs. Push-to-open on hinged fittings and flexible width reductions on drawers and pull-outs create added value for planning.

The entire home. Thought through to the smallest detail.
For bedrooms we now offer the wardrobe range DREAM with new planning options, additional lighting solutions and interior equipment, designed to impress. Our cottage-style range is growing larger and more versatile and now includes independent product lines for living rooms and bathrooms. Six new sliding door décors expand the design versatility for room dividers and dressing room solutions. In the bathroom segment, a new wellness unit and top-mounted hand basins in a natural stone appearance have been added to the range as appealing wellness highlights.

Our new features for 2027 combine powerful design trends for the entire home with sophisticated concepts and great market relevance.
We hope the following pages will inspire you – enjoy!

FEELING AT HOME IN EVERY ROOM.

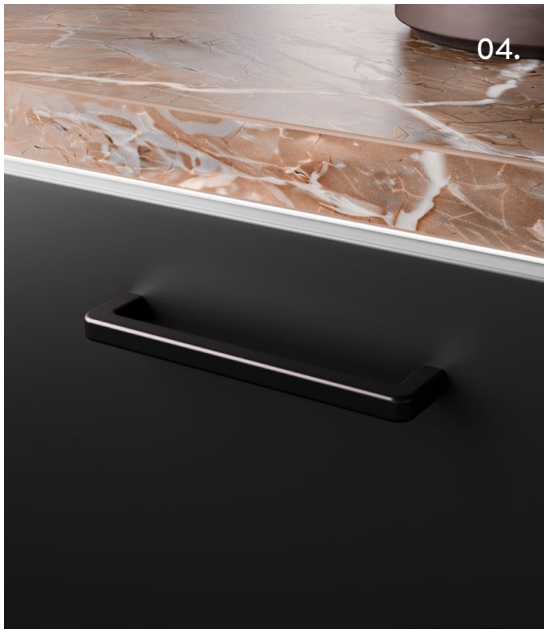

The home of 2027 is characterised by a calm, natural ambiance and clean design. Warm hues and expressive trend colours create atmosphere and depth. Wood and stone looks add authentic material design to kitchens, bathrooms and living rooms. Deliberate details such as new niche motifs or sliding door variants create greater freedom of design and make plans more customisable. Discover our new features: a product range responding to diverse customer requests – flexible, modern and inspiring.

OUR FRONTS FOR 2027: NATURAL APPEAL.

**Our new fronts respond to current trends: visual tranquillity, material quality you can feel and a modern cosiness. Warm wood décors with texture, trend colours and surfaces inspired by nature add contemporary design options to our range.
As a particular highlight, the new micro frame front is a modern eye-catcher. For greater convenience in everyday life, seven of ten fronts come with anti-fingerprint coating.**

MORE VERSATILITY. MORE OPTIONS.

Our most popular ranges now offer even greater freedom of design. SENSO with its expanded colour palette of calm natural hues is perfect for even broader style choices. STRUCTURA adds natural versatility with authentic wood grain to any plan, thanks to a range of oak hues from bright to dark. These ranges offer the right solution for any customer, with even greater freedom of design.

ONE BEST-SELLER
MANY QUALITIES.

The honed lacquer surface unites a velvety feel with clean, modern design. Anti-fingerprint coating keeps the high-quality look flawless in everyday life by preventing visible fingerprints and making the surface much easier to clean. New trend colours that are ideal for a fully coordinated tone-in-tone concept have also been added to SENSO. SENSO also sets standards where sustainability is concerned: with a melamine chipboard made fully from recycled material that is, itself, fully recyclable and has been awarded the “Blue Angel” environmental label.

CALMING HUES.

IVORY – A WARM WHITE WITH A SOFT MOOD.

Arrive. Breathe. Simply be at home. Moody neutrals such as ivory and sand let you do just that – by giving rooms a bright, warm ambiance that radiates calm and lightness. With a consistent tone-in-tone design from the furniture to the handles, these hues display their full potential. Surfaces in a marble and quartz look add subtle highlights.

GENTLE HUES
STYLISH MATERIALS
VISUAL TRANQUILLITY

SAND –
A NATURAL HUE
RADIATING CALM
DEPTH.

DELICATE FRAMES. CLEAN GEOMETRY.

Framed fronts are a classic design choice – and are currently in high demand in a modern reinterpretation. Our new micro frame front CADRA gives this look a contemporary touch, thereby reaching new target groups: Customers that appreciate the classy look of a frame design, but prefer clean, reduced styles. The warm sand hue adds a sense of calm to the plan and opens up more space for different combinations: From tone-in-tone for a cosy contemporary style to an accompanying hue for natural materials.

Range no. 701

CADRA 746 **PG 7**
Lacquered laminate, sand ultra matt

—

Matching surround:
Carcase, upright panels, shelf units

Delicate geometry and clean lines create depth and elegance. A frame width of 12 mm underlines the subtle charm.
A panel thickness of 18 mm and a 4 mm frame add up to a total door thickness of 22 mm.

Taj Mahal presents the trend material of 2027. This popular look features flowing grain patterns, a warm ambiance and a distinctive personality. The golden sink adds a matching classy highlight.

QUIET ELEGANCE.

**This new front unites three appealing qualities:
the high-demand colour Sand, our top-selling honed lacquer range SENSO and
an attractive price in price group 3. The warm natural hue Sand gives this design
its grounding, balanced effect and makes rooms feel calm and cosy.
Its nuanced, light-coloured elegance opens up a wide range of design options and fits
perfectly into coordinated styles from modern minimalism to natural cosiness.**

Sand is one of the most popular and top-selling uni colours. That is why Sand is available in all top ranges and across all price ranges.

NATURAL COSINESS.

This off-white deserves renewed attention. Ivory feels warmer and more inviting than pure white, and therefore represents a response to the growing demand for natural cosiness. And that's just where the new potential of this well-established colour comes from: it is bright enough to create a feeling of lightness, but warm enough to create a relaxed ambiance.

Ivory is perfect for tone-in-tone designs – but looks just as beautiful in a wide variety of combinations, even with dark contrasts.

The honed lacquer fronts in perfect honed are designed to impress with their exclusive look and remain flawless in everyday life thanks to anti-fingerprint coating.

INTENSITY IN COLOUR.

Our colours are bold – not loud, but deep.
In 2027, the trend colours Terracotta and Berry bring nature indoors. These hues are earthy, sensual and confident at the same time. They create a cosy haven but have a strong personality, too. Combining them with dark stone and marble surfaces results in a harmonious interplay of colour and material. Colour becomes a feeling: warm, expressive and with a strong presence.

EXPRESSIVE HUES
NATURAL NUANCE
WARM HIGHLIGHTS

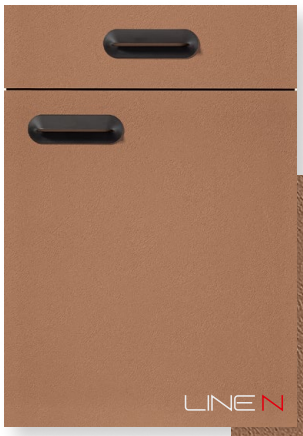

TREND COLOURS WITH STRONG PERSONALITIES.

Even in the entry-level segment, this design is all about quality you can see and feel.
This strong hue – inspired by fired clay and natural terracotta colours – creates an ambiance with an immediate effect: grounded, vivid, expressive. Combine it with subtle ceramic textures and the resulting look is authentic and feels great to touch.
Textured surfaces make intense hues look particularly vivid and give rooms their own identity.

Range no. 099

DARK HUES. STRONG EFFECT.

Full, natural, grounded: Berry is a dark colour that adds a distinctive element to any plan. It is cosy and expressive at the same time: its warmth makes you feel at home, its presence creates a unique personality. The honed surface plays with light, looking soft in one moment, intense and deep in the next.

Range no. 357

SENSO 498 **PG 3**

Combined with gold, this material composition radiates true luxury. Calm Sand-coloured surfaces create a beautiful contrast, making Berry all the more distinctive.

Attractive all-around!
- **Easy to clean thanks to anti-fingerprint coating**
- **Resistant to common stains**
- **Resistant to many cleaning agents, heat and moisture**
- **Resistant to micro-scratches, which can also occur during cleaning**

DELIBERATELY NATURAL.

In an ever more digital world, many people have begun craving something real – for instance, surfaces you can't just see, but feel. Wood and natural stone décors add warmth, texture and natural authenticity to any room. They make for a sensory experience that is familiar and unique at the same time. Neo Nature becomes much more than just a look: It is an attitude, supporting conscious, long-lived design that brings joy for years and years and years.

WOOD TEXTURE – DESIGNED FOR EVERYDAY LIFE.

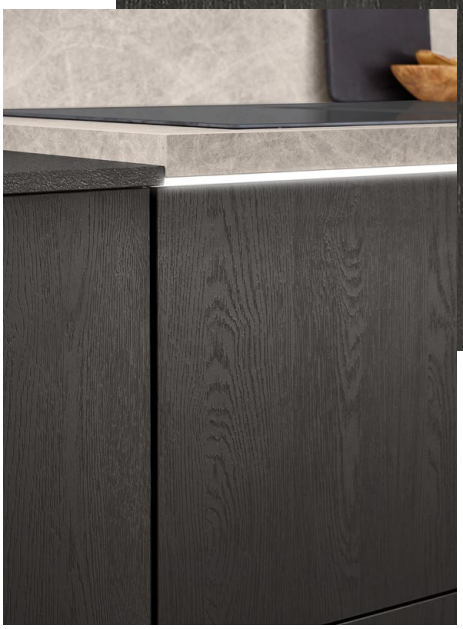

Nero oak is a modern, clean oak style with a vivid wood look, texture you can feel and precise lines. This décor was developed further for added value: for the first time, anti-fingerprint coating is available on a melamine resin coated front. The result is a design that is not just visually impressive, but easy to clean and elegant in the long run, even with large, dark-coloured surfaces.

Range no. 382

STRUCTURA 419 PG 3
Nero oak reproduction

—

Matching surround:
Upright panels

The particular quality of this design is obvious at first glance on a dark surface, as that is where fingerprints are especially easy to see. The anti-fingerprint coating on this melamine resin coated front keeps it looking flawless and clean for a long time – thanks to sophisticated technology, applied to a textured 3D surface.

CONSCIOUS DESIGN IN BLACK.

The new Black option makes our frame front a true trendsetter. This five-part front with its delicate wood texture is already one of the most popular looks in our product range – and now gains new graphical presence in its Black version. It's perfect for customers that want to rethink a cottage-style design to make it modern, design-conscious and expressive.

Range no. 419

HARMONY ALL AROUND.

An ideal combination: Available as of 2027, Faro oak as a new carcase décor and three designer carcase colours with identical décors throughout the full carcase create coordinated overall looks – inside and out. New colours for surrounding elements offer even greater freedom of design for upright panels, plinths, shelf units and worktops in combination with fronts – from tone-in-tone through subtle highlights to deliberate contrasts.

FARO OAK STRENGTHENS OUR CARCASE RANGE

The new Faro oak reproduction carcase décor expands our carcase range with a warm, contemporary wood look that has an elegant personality.
The delicately textured décor looks cosy and minimalist at the same time – and displays its design quality beautifully in a consistent overall look. Faro oak can be used anywhere: as a carcase décor on the inside and outside, as a front, upright panel, plinth, shelf unit, worktop, console shelf, niche cladding, interior pull-out panel, FurnSpin, design cover (C029) and design profile (P029).

CARCASE DÉCOR 029
Faro oak reproduction, identical décor on the inside and outside

INSIDE AND OUT. WITHOUT COMPROMISE. WITHOUT SURCHARGE.

3 designer carcase colours are available from 2027 on. These come standard with the same décor on the inside and outside – without a surcharge. **The surcharge for the carcase interior décor MP-KID will be discontinued from the 2027 collection on.** For all other carcase colours, the interior colour will continue to be white.

A KITCHEN FOR ALL SENSES.

A kitchen that brings joy is one that appeals to all senses. Modern lighting creates an appealing ambiance. Clever solutions make life simpler and more enjoyable. Appliances perfectly match the style of the kitchen they're in. And that is precisely what characterises our new features for 2027: Style, ambiance and convenience that prove their worth every day.

01.
—
Indirect lighting beneath the worktop adds an elegant ambiance to a room and subtly draws the eye to the materials.
—
See page 50

02.
—
The rolling shelf board makes it easy to move small appliances securely and smoothly on the worktop.
—
See page 52

03.
—
Appliances are a major part of coordinated design. Ovens in front colours or in a cottage-style make it possible to create a fully consistent kitchen concept.
—
See page 59

CUSTOMISED DESIGN

For kitchens with a conventional design – without LINE N or LINE One recessed handles.

UP TO A MAXIMUM LENGTH OF 4000 MM

Can be configured to the desired length – including 2000 mm connection cable to starter set.

LIGHT, THE COLOUR OF YOUR CHOICE

With Emotion technology, infinitely adjustable from warm white to daylight white – from 2700 to 6500 K.

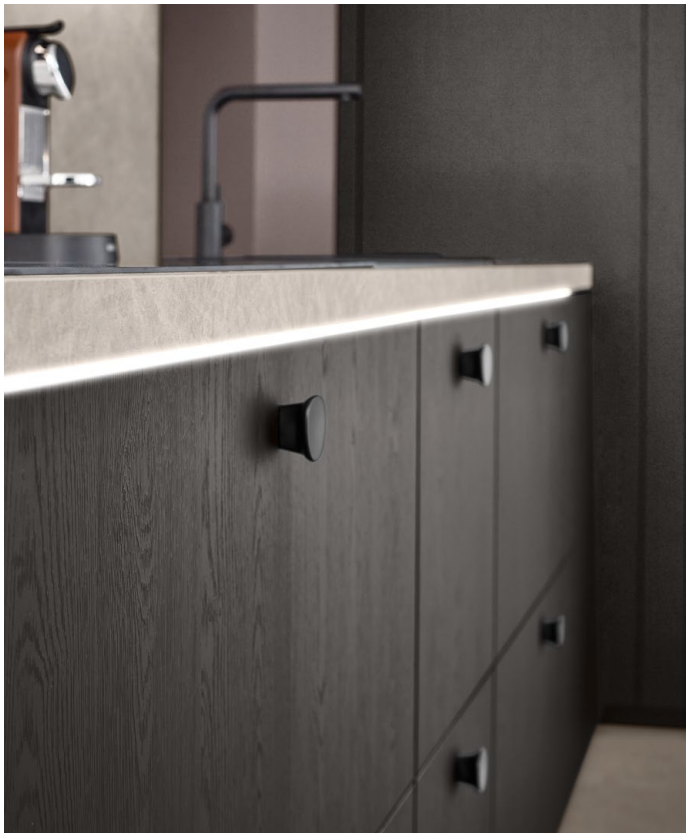

A NEW KIND OF AMBIANCE.

Ambient lighting is a firm part of contemporary kitchen design – it is not just functional but shines a spotlight on materials and surfaces. In particular, handleless kitchens can use illuminated recessed handles to great effect. The new LED lighting SILVA now opens up this freedom of design for conventional kitchens, too – irrespective of their handle solution, style or range.

INDIRECT LIGHTING. FOR ANY KITCHEN.

Whether end-to-end along the kitchen run, on all sides of an island or as a deliberate highlight underneath worktops – SILVA adapts to any plan. The light is reflected by the surface beneath, creating an even, indirect effect without a visible light source.

LED MOOD LIGHTING
SILVA MP-APLLS
for worktops and cover shelves

- LED 7.5 W / 1000 mm, 12 V DC
- IP44, energy efficiency class F

- When planned at end of run or as a free-standing solution, uprights at end of run are required

CLEVER SOLUTIONS FOR EVERYDAY LIFE.

Those functions that make everyday life noticeably simpler are the truly vital ones. Storage space near the handle in the dresser unit with folding door, convenient access to the rolling shelf board and the new mechanical push-to-open solution for the flap door fitting AVENTOS for tall units, wall units and dresser units: Convenience that customers feel every day.

DRESSER UNIT WITH FOLDING DOOR AFT*

The dresser unit with folding door offers easily accessible storage space on the worktop – the ideal place for kitchen utensils that see a lot of use. As of the 2027 collection, the new fitting will also be used for wall units with a folding door WFT*.

- Widths: 600, 900 mm
- Heights: 1258, 1330, 1402 mm, variable height for surcharge

Recommended accessories
- Rolling shelf board for worktops
- EVOline One built-in single socket (assembly on site)

ROLLING SHELF BOARD RTAB for worktops

A small detail with great effect: The rolling shelf board provides easy access to small appliances – they're right where you need them with just one pull, and easy to return to the dresser unit. Easy to roll with the aid of a lever, with a stable parking position.

- Width: 390 mm
- Depth: 480 mm
- Height: 60 mm
- Maximum load: 15 kg

Can be combined with dresser unit with folding door AFTTT* and (glass) roll-up covers AJTT* and AJGTT*.

PTO-COMPATIBLE FLAP DOOR FITTINGS
for surcharge MP-PTOK

The new collection makes the AVENTOS flap door fittings PTO-compatible. This makes it possible to add flap doors to wall units, tall units and dresser units with a mechanical push-to-open system – ideal for handleless kitchen concepts. This improves operating convenience in everyday life and simultaneously makes it easier to create a minimalist, handleless look.

LINE ONE TALL UNITS
INCL. PTO FLAP

Our LINE One tall units with flap will come standard with the PTO system. This means all front elements of LINE One units will be equipped with the push-to-open system.

LINE N OVEN HOUSING
WITH LIFTING DOOR

Our oven housings with lifting door will also become available in the LINE N range as of 2027. Available in all tall unit heights 1 to 3X.

FLEXIBILITY AT ALL LEVELS.

The product range expansion in the Maxi height featuring a new front height of 429 mm creates a calmer overall look and optimised options for coordinated concepts. Wall units with a glass door in a height of 576 mm add additional lightness to small spaces, while open-shelf dresser units integrate free-standing fridges in the plan, both functionally and visually.

CARCASE-HEIGHT UPRIGHT PANELS
683 mm deep upright panels in carcase height for protruding solutions

BASE UNITS
Addition in Maxi height with front height 429 mm

- With 2 pull-outs
- With 1 drawer, 2 pull-outs
- With 3 drawers, 1 pull-out

FILLERS AND CORNER FILLERS
Supplement in Maxi height with front height 429 mm

SINK UNITS
Supplement in Maxi height

- With 2 pull-outs
- With and without waste collector

WALL UNIT WITH GLASS DOORS WGLS* AND WGAMB*
Wall unit height 576 mm

Wall unit height 576 mm now also comes in glass versions that make additional designs possible, specifically segmented glass doors and Ambia glass doors.

- Widths: 450, 500 and 600 mm

OPEN-SHELF DRESSER UNITS UFKR*
for free-standing fridges

With a variety of available widths and shelf heights, open-shelf dresser units offer additional flexible solutions for different planning requirements.

- Side depth: 582 mm
- Widths: 600, 762, 900 and 1000 mm
- Shelf unit heights: 288, 360, 432 and 504 mm

DISHWASHER FRONT
Supplement in Maxi height with front height 429 mm

HOT PLATE AND HOT PLATE EXTRACTOR UNITS
Supplement in Maxi height with front height 429 mm

APPLIANCE HOUSINGS
with matching lines

MORE INDIVIDUALITY.
MORE FUNCTIONALITY.

Custom-fit solutions for greater precision in planning and improved everyday convenience. From flexible width reductions through additional unit variants, to matching equipment details and new socket and lighting solutions: Each expansion adds more freedom to kitchen planning.

WIDTH REDUCTIONS FOR DRAWERS AND PULL-OUTS

Surcharge BKSA

On nBOX drawers and pull-outs, flexible width reduction in a 1-mm grid is now also possible. A wooden back panel allows precise adaptation of drawers and pull-outs to different planning situations. Depending on the planning requirements and level, this may make it unnecessary to use fillers for compensation.

This is possible for smooth fronts with edges on all sides without bar handles in the programs:

- Easytouch 945
- Focus 312
- Laser 615
- Look 099
- Riva 371
- Senso 357
- StoneArt 566
- Structura 382

Width reductions down to the millimetre for the best possible fit

UNIT VARIANTS AND ACCESSORIES

COTTAGE-STYLE PULL-OUT UNIT
ULM 50 (-X) / ULM 60 (-X)
Walnut colour, no. 928

The pull-out unit ULM* provides just the right detail for customers looking for a classic cottage-style.
The solid oak wood front, for instance, can be adapted using design covers and profiles in Milano walnut.

SINK BASE UNIT
for water treatment systems
in 1200 mm width

Simplifies planning of larger sink areas: The sink base unit for water treatment systems is also available in the new width of 1200 mm.
In addition, Separato K for a width of 600 mm is also available as an individual item.

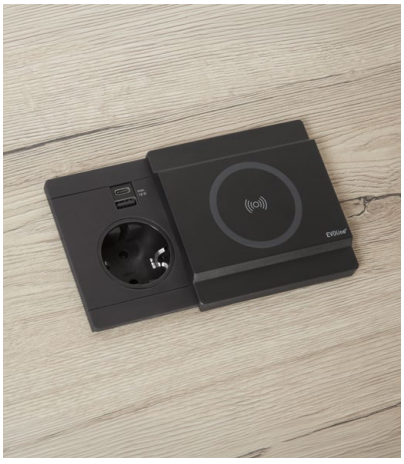

TRIPLE SOCKET
POWER QUAD PQUAD*
with USB charger

Three sockets and a USB charger provide a convenient connection point right where appliances and mobile devices are regularly used.
Available in the new colour 076 Black satin-finish as of 2027.
Available in EU / EEA countries.

DOUBLE SOCKET
POWER CORNER PECK*
with USB charger

Clever connection planning in the corner area. Available in the new colour 076 Black satin-finish as of 2027. Available in EU / EEA countries.

BUILT-IN SOCKET
EVOLINE CIRCLE80 CIRC80
with cover and induction charging function

The sliding cover is designed as an inductive charging station with MagSafe – compatible smartphones and smartwatches can be charged wirelessly.
Available in EU / EEA countries.

- Installation hole: 80 mm diameter
- Installation depth: 48.5 mm

LIGHTING OPTIONS

BUILT-IN / TOP-MOUNTED LED LIGHT LUNA LLUNA / LLUNA-SET

As a successor of the spotlight MOONLIGHT, the spotlight LUNA was developed explicitly for the European market. The spotlight, which is available in black and stainless steel look, fits perfectly into a wide range of design concepts.

Available in: 010 Black,
014 Stainless steel appearance

BUILT-IN / TOP-MOUNTED LED LIGHT NOVA DUO LNOVAD / LNOVAD-SET

The NOVA DUO spotlight combines precise accentuating light with an integrated ring light function and adds a lens that can be activated separately to the light design. As the successor model of the NOVA PLUS spotlight, the light represents versatile function and a clean, contemporary design language.

LED NICHE LIGHTS ADD LITE LNADD-SET / LNADD

The LED niche lights ADD LITE and the matching additional light offer neutral white light and an integrated dimming feature for a functional lighting solution.
Available in black and grey, this lighting solution melds seamlessly into a variety of different room concepts.

Available in:
010 Black, 039 Grey

UNIT INTERIOR LIGHT DELANO LSID

The unit interior light DELANO permits flexible adaptation of the lighting mood (2700 to 6500 K) – automatic switching using an integrated IR sensor. The aluminium profile with a satin-finish Plexiglas cover and black end caps is suitable for installation together with drawers and pull-outs in base units. Includes 2000 mm connection cable to starter set, 500 mm adhesive ribbon cable.

INTEGRATED LIGHTING HUE BAKU WHITE COLOR AMBIANCE

Can be used in the top shelf MP-LHB-O and bottom shelf MP-LHB-U of glass wall units

The built-in LED light HUE BAKU WHITE COLOR AMBIANCE in black with RGBTW technology offers a wide range of lighting moods as well as the classic warm white to daylight white range (2700 to 6500 K). A 2000 mm connection cable (6 pins) can be used to connect it to the matching starter or follow-up set LSET-HB / LFSET-HB. It is IP44 compatible.

REMOTE CONTROL 1-CHANNEL SMART SWITCH

By default, it is supplied as a 1-channel remote control, but can be converted to a 4-channel control if required. This allows it to be used for a variety of different applications while maintaining full ease of use.

COORDINATED DESIGN THAT INTEGRATES APPLIANCES.

Where appliances are included in the design concept, the resulting look becomes far more appealing. And that is precisely what these two new oven variants are designed for: They expand the available selection to match different styles – from a modern interpretation of cottage-style concepts to harmonious tone-in-tone designs. Moreover, in 2027 we will be expanding our extensive range of appliances with Constructa appliances from BSH.

LAURUS

ADDITION TO THE PRODUCT RANGE IN COTTAGE-STYLE

A highlight for any cottage-style kitchen:
This joint development together with Laurus is fully in line with the cottage-style concept – reduced, clean, with its own personality. The classic rotary knobs provide the essential design element. The handle design can also be used on furniture fronts for a more fully coordinated look. A distinctive detail of the design: As a high-quality addition with a sophisticated design, the Laurus emblem underlines the characteristic retro style of this oven, while simultaneously drawing the eye to the brand in a striking fashion. Laurus represents quality, innovation and excellent value for money. A variant with a display is also available.

beko

ADDITION TO PRODUCT RANGE IN SAND

Customers that choose the natural hue Sand are primarily looking for one thing: an uninterrupted calm effect.
Two new Beko ovens in Sand fit seamlessly into this tone-in-tone concept. They are perfect for a kitchen design that integrates appliances fully.

Constructa

PRODUCT RANGE EXPANSION

By including Constructa, a BSH brand, we are adding a new strong partner to our product range in 2027 – for an even greater selection and customised solutions for any customer request.

SINKS AND TAPS FOR ANY STYLE.

The sink area can be deliberately adapted to the kitchen concept through use of sinks of different materials, with different designs. Easy-to-clean, durable designs ensure that the look remains beautiful with everyday use. Matching taps in Chrome and Black complement the clean, contemporary style.

SCHOCK
Single-basin sink SOLA N-100(L) made of CRISTALITE®

With SOLA N-100 (500 mm) and SOLA N-100 L (600 mm), we are adding two new single-basin sinks to the Schock range. Both are available as a brand bundle in Onyx colour – including a black tap and black sink insert.
Also available as single basin sink including sink insert.
Flush-mounted installation is possible.

WASSERWERK
Tap available for high-pressure and low pressure with fixed spout

Wasserwerk as a new, exclusive tap brand adds six taps with C-spouts in Black and Chrome to our available product range.
The selection of designs and colours matches a variety of different kitchen concepts.

ELLECI
Built-in sink UNICO 305 made of GRANITEK®

An additional built-in sink, UNICO 305, has been added to the product family. Moreover, the established models UNICO 125, 410 and 480 will be converted to manual operation.

- Colours: Anthracite, Black, Bianco Soft

SYSTEMCERAM
Built-in sinks made of ceramic material

Greater flexibility, greater selection: Thanks to a growing palette of colours, Systemceram built-in sinks can be used for even more customisable plans. On top of that, SOLVA 80 fits into base units with a width of 500 mm or more thanks to its rotatable design.

SOLVA 80
- Material: ceramic material
- Colours: Greenland, Nigra, Macchiato

GENEA / MERA
- Added colour: Macchiato

RODI
Built-in sink UNA 50N / 40N

Easy-to-clean stainless steel built-in sink with clear design language and great suitability for everyday use. Additional colour variants add deliberate highlights to plans.

UNA 50N
- Added colour: Gold

UNA 40N
- Added colours: Gold, Bronze

FRANKE
Built-in sinks

New in the Franke range: The sink models SPARK SKX in Stainless steel and SIRIUS S2D in Tectonite. This makes the selection for sink planning significantly broader.

SPARK SKX 611-78 / SPARK SKX 611-78 (50) XL
- Material: stainless steel

SIRIUS 611-78 XL / SIRIUS S2D 651-100
- Material: Tectonite
- Colours: Carbon, Blanc Arctic

GESSI
High-pressure mixing tap KASIRA

For compact planning situations by windows, the high-pressure mixing tap KASIRA offers a high-quality solution in a minimalist design. The tap is hinged, making it perfect for installation underneath windows. The plinth height remaining in the retracted state is 77 mm.

- Colours: Black matt, chrome-plated

KLUDI
Mixing tap M3

Straight-lined design, high-quality workmanship – available as high-pressure version with fixed spout or pull-out swivel spout.

- Colours: Black matt, chrome-plated

EASY TO PLAN.
AT APPEALING PRICES.

After the launch of nobi smart last year, we are now adding high-demand units to the range. A lean, easy-to-plan selection of units and attractive prices make this product range a highly appealing option in this segment. The basis is price group 0 with reference kitchens, with prices around 10 % below price group 1.

BASE UNIT WITH 1 FRONT AND 2 PULL-OUTS UFA30

The pull-outs are equipped with the proven Profi+ pull-out mechanism.

• Width: 300 mm

You can check out the full range of new units for nobi smart in the media portal in the nobilia Extranet: extranet.nobilia.de/en/

nobi smart

HIGHBOARD AND TALL UNIT WITH FRONT PULL-OUT AND HINGED DOOR HFTA30*

nobi smart meets high standards of functionality and equipment, even in the low price segment.

• Width: 300 mm
• Heights: Highboard height, tall unit height 1

WALL UNIT WITH SEGMENTED GLASS DOOR WGLS*-58

Wall unit height 576 mm

Stylish diversity in the program: The wall unit with the segmented glass door makes the room more homelike and adds additional design highlights to the plan.

• Widths: 450, 500, 600 mm

LIVING.
RE-INSPIRED.

For more and more people, living means: Individuality down to the smallest detail. Our new features for 2027 are designed to respond to precisely that need – with an independent cottage-style product line that expands the Living segment by this popular style and new accessory options that make the wardrobe unit even more flexible. These options give customers greater freedom of design.

01.
—
With its new glass cabinet, the FRAME program offers even more options for customised planning in a cottage-style.
—

Architektur als Werkstatt
CHAPTER

COTTAGE-STYLE. THROUGHOUT ALL ROOMS.

The style that has made kitchens look amazing for years, is now also available for the Living segment. A new glass cabinet design in the FRAME program and clever suggested combinations for the BARI product line make cottage-style designs even more flexible and individual. The cottage-style trend has long entered the living room segment – our new features make plans in this style easier, to boost sales in this segment.

NEW GLASS CABINET DESIGN IN FRAME PROGRAM HSVG* / VG*

This new glass cabinet design expands the FRAME front program with an additional cottage-style glass design. It is beautifully framed by the FRAME wood texture you can feel with its anti-fingerprint coating.
The framed glass door provides the perfect stage for your favourite items and turns the glass cabinet into an eye-catcher, whether in the living or dining room.

Available designs

- Tall unit glass cabinet HSVG*-202 in 2016 mm (1 framed glass door, 1 door)
- Wall unit glass cabinet VG*-130 in 1296 mm

- Widths: 450, 500, 600 mm
- Available glass types:
  01 Clear glass,
  23 Ribbed glass

COTTAGE-STYLE PRODUCT LINE BARI

BARI makes cottage-style designs in the living and dining room easy to implement throughout the entire space. If you're planning to design a cottage-style home across rooms, you need more than individual products – you need a fully developed system. And that is just what our BARI product line offers: fully coordinated suggested combinations and sets to simplify both planning and consulting. The results are consistent furnishing solutions that are exceptionally simple to order. The data is available directly in the furnplan planning program.

The sales document BARI is available to you in the media portal of the nobilia extranet: extranet.nobilia.de/en/

MORE EQUIPMENT.
MORE CONVENIENCE FOR DREAM.

We are adding essential planning options to the DREAM wardrobe range. New solutions such as a corner element and an attachment element of variable widths offer more flexibility in planning. Open shelf elements and additional handles provide new design options. Customised interior equipment and lighting options make the unit even more functional and convenient.

INTERIOR ADDITIONS

Lifting clothes rail KL-KS
- Black with chrome-plated wardrobe rail
- For carcase interior width 730 to 1190 mm
- Compartment height min. 850 mm

BATHROOMS WITH CLEVER SOLUTIONS.

Bathrooms are becoming more personalised, turning into havens of wellness and comfort, with their own personality. Our new features for 2027 combine sophisticated functions with intelligent storage space solutions for any bathroom size and brand-new versatility of design. For the first time, a separate cottage-style product line is available, as well as highlights such as the wellness unit and top-mounted hand basins in a natural stone appearance. These provide strong sales arguments for any bathroom plan.

01.
—
The midi unit with a framed glass door combines function with cosy cottage-style charm.

DESIGN. FUNCTION. COMFORT.

Our new bathroom ideas combine sophisticated storage space solutions with an atmosphere of comfort. Thanks to intelligent base unit solutions, variable upright panels and new décors for console shelves, designs are now even more flexible.
The cottage-style segment takes a step forward: The WILLOW product line introduced in the 2027 collection is the first cottage-style product line specifically for bathroom design.

MIDI UNIT WITH FRAMED GLASS DOOR
Carcase height: 1296 mm

The new midi unit with a framed glass door is available for FRAME and NORDIC – it expands the unit selection and makes cottage-style bathroom designs even more versatile.

- Carcase depth: 350 mm
- Widths: 450, 500, 600 mm

WILLOW COTTAGE-STYLE PRODUCT LINE

The brand-new, contemporary cottage-style appeals to customers and is in increasing demand, including in the bathroom segment. In 2027, we are adding WILLOW, the perfect response to this trend: a separate product line based on FRAME and NORDIC that makes this trend easy to plan and is designed to boost sales.

The sales document WILLOW is available to you in the media portal of the nobilia extranet: extranet.nobilia.de/en/

WELLNESS UNIT BMW(2)T*

After the successful introduction of the breakfast unit for kitchens, we are now adding its counterpart for bathrooms: The wellness unit brings structure to your daily routine and features the look of a first-class designer piece. The back panel in Faro oak reproduction creates a warm, cosy ambiance. In addition to the supplied shelves, the inside of each door offers extra space.

- Carcase height 1296 mm = single-door design
- Carcase height 1584 mm = double-door design
- Widths: 500, 600 mm

WALL UNIT UPRIGHT PANEL
with new variable depth

Wall unit upright panels with variable depth from 211 to 224 mm: This makes it possible to give mirrored cabinets and wall units an even more customisable look.

- Depths 211 to 224 mm
- Thicknesses: 10, 16, 25 mm

BASE UNIT
Carcase height: 720 mm

The 720 mm high base unit with a 141 mm drawer and a 573 mm hinged door is a compact add-on piece for even more storage space – it has the ideal dimensions for combining it with wall units and is an appealing alternative to taller pieces of occasional furniture.

- Carcase depth: 350 mm
- Widths: 300, 400, 450, 500, 600 mm

CONSOLE SHELF
KONSOP*

Two new décors for even more options:
The console shelf provides added design versatility with 029 Faro oak reproduction and 399 Milano walnut reproduction.

NEW EYE-CATCHERS FOR BATHROOMS.

A bathroom becomes truly unique when each detail matches the customer's style. New elements, from soft, organic basin shapes in natural stone appearance to modern mood lighting solutions to taps in trend colours, create new options that can be combined for a fully-coordinated, first-class look.

Round design
- Size 420 × 420 mm, 130 mm high
- Available in: White high gloss, White Concrete, Grey Concrete

Oval design
- Size 550 × 350 mm, 130 mm high
- Available in: White high gloss, White Concrete, Grey Concrete

Recommended tap
KLUDI hand basin tap PURA (17843, 17856 or 17877)

RAK
Top-mounted hand basin SKIN

Natural stone appearance as an eye-catcher, ceramic material as the safe choice: These top-mounted hand basins in a classy stone look fit seamlessly into a variety of styles. In addition, a white high gloss design with a hygienically smooth, easy-to-clean surface is also available. All versions in a round and oval shape are available with a free flow basin waste with a ceramic cover.

KLUDI
Tap PURA 100

Our KLUDI tap PURA 100 is available in new colours: Black matt and Chrome.

KLUDI
Tap X1

The KLUDI hand basin tap X1 in the low version is available in Black matt and Chrome.
The high version is exclusively available in Chrome.

GESSI
Hand basin single lever mixing tap ALILA

The black single-lever hand basin tap ALILA now comes with a pop-up in the same black colour – for a consistent look.

MIRRORED CABINET WBSP*
Additional widths

14 new cabinets will be added to the WBSP* range. Specifically, the widths 400, 500, 1300, 1400, 1500, 1600 and 1800 mm will become available – as a 1- to 4-door version, depending on the width. From 1300 mm onward, symmetrical and asymmetrical division options for the doors create more freedom of design: A 3-door version with symmetrical outer and a differing inner door or a 4-door version with pairs of outer and inner doors of differing widths are available.

MIRROR SVEA SP-SVEA*
with LED lighting on all sides

The heated mirror SVEA features a silicone profile with all-round LED lighting – direct forward lighting and indirect backward lighting – as well as three touch sensors to control the colour temperature (2700 to 5700 K), light intensity and anti-fogging function.

- LED – 24 V DC with converter
- IP44, energy efficiency class C
- Dimensions: 800 mm high, 36 mm deep
- Widths: 500, 800, 1000, 1200 mm

LED FRAME LIGHTING LARSP*
for mirrored cabinets WBSP* as built-in variant

The new LED frame lighting is a clear upgrade for mirrored cabinets: The aluminium frame in a stainless steel look with a satin-finish acrylic glass cover ensures homogeneous LED lighting on all sides with a forward light direction.

- IP44
- Dimensions: 752 mm high, 60 mm deep
- Widths: 600, 800, 900, 1000, 1200 mm
